

My name is Clifton Crawley, and I would like to serve as President of the Morehouse College Atlanta Alumni Association. I have served with the alumni chapter for over 15 years off and on. I have helped spearhead and organize events such as The Morehouse Alumni Picnic, charity programs like our Grady Trauma Clothing Drives, and our civic initiative the Morehouse Voter Project, MVP. I possess the passion, knowledge, and ability to lead the chapter and build off the legacy of the previous leadership. I intend to push the chapter in the next two years into service:

The Institution: Continue to serve Morehouse in the institution's push into growing its endowment and healthy interaction with our alumni.

Students: Continue to build with the Men of Morehouse and serve in mentorship, scholarship, and fellowship with the current students through activities on and off campus, with relationships fostered with the institution administration and SGA. We will brand The Mystique as a working relationship with students and alum.

Community: Morehouse ATL will continue to take the lead in serving the community of Metro Atlanta in civic impact (MVP), educational leadership (Through Metro School Districts), and community engagement. Morehouse can no longer exist in the shadows of Maynard when we should be in the front taking lead and ownership of Atlanta.

Alum: Morehouse Alumni ATL will serve its fellow brothers by providing them with fellowship, growth, and support. The alumni association should be an incubator of progress and professional growth for alums. As we each grow individually so should we as a collective from our most recent graduates to our most seasoned.

I know I have a strong structure plan to continue to build on our already successful events as well as create new events that will push the chapter forward to 500 members strong, 100K in endowment, 50K in the bank, and most importantly serve our brothers and mother Morehouse.
